

WELL BEYOND CARE

10 CAREGIVING BENEFITS

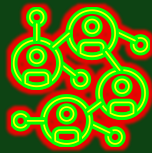

for

Caregiving
Nonprofits

1- Caregiver Curation

Can pull from a large pool of local caregivers that Well Beyond Care has access to across the USA. No more posting jobs or chasing caregivers.

2- Caregiver Management

Expand caregiving mission without adding overhead & staff; reduce turnover & truancy. This can lower your total cost of care, letting you do more with less.

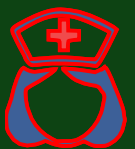

3- Flexible Payroll Options

Online tracking of time sheets, billing and payroll and you use can use your existing system or ours for payroll. Easy Integration with customize downloadable data files.

4- Match Care Needs

Because our system matches the needs and culture of your clients with the abilities of the Caregivers, there will be a better "rightness of fit" and therefore a better relationship between the Caregiver and your client.

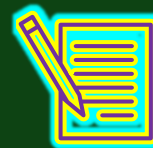

5- Nurse Health Navigator

Clients have access to a nurse navigator to help find and keep safe, reliable, dependable care in the home; and with transitional care within their community.

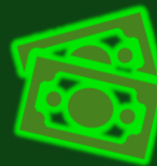

6- Better Care Coordination

With our online Care Plan you get daily notifications of what care was delivered and any issues your client might have by the Caregiver.

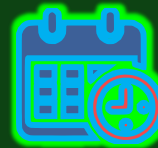

7- No Contract / No Upfront

Using Well Beyond Care as part of your caregiving offering requires no contract, or up front fees. No minimums, nor usage requirement.

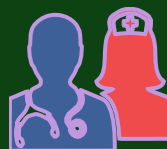

8- Pay-As-You-Go

Our fee structure is a small per hour-of-care-given, plus a minimal payroll fee if we implement your agency's billing and payroll.

9- Manage Care Anywhere

Use technology to allow you to manage care from your office, home, remotely. Can expand services without the need to expand unnecessary oversight or redundancies.

10- Connect & Communicate

Our unique care-circle system allows extended family members to stay informed on the care that is being performed. Caregiver also can alert client's health care providers in case of a significant change in status or health, preventing avoidable emergency room visits
