

# 8 WAYS WE HELP YOUR PATIENTS

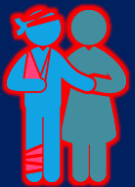

## 1- Clients Choose Caregiver

Once a client completes their profile, they are given a list of the most compatible caregivers to their care needs, then show them (or their admin) how to walk through the steps of screening, interviewing and hiring a caregiver.

## 2- Families Save Money

Typically, families using Well Beyond Care save \$10K to \$30K a year in caregiving costs in comparison to private duty agencies. This opens up the possibility for people needing care who may not be able to afford private duty care.

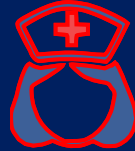

## 3- Less Truancy & Turnover

Caregivers on our system make 25% to 40% more money and because both the client and caregiver get to choose the match, there is less chance of a no-show and little turnover. It is about EMPOWERMENT.

## 4- Family & Friends Oversight

Our unique care-circle system allows family near or far to stay informed on the care that is being performed. With our internal messaging, family and friends can communicate with the caregiver and their nurse navigator from anywhere.

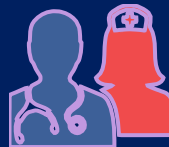

## 5- Health Care Navigator

Every client has access to a nurse navigator who is experienced with geriatric care to help them find & keep safe, reliable, affordable care in their home, give access to sr. resources and transition care within the healthcare community.

## 6- Care Plan / Scheduling

Our system provides the tools to help your clients plan care to safely "age in place." In addition to scheduling, we offer daily reminders (with sign off) of the care plan to your caregiver to ensure proper care is given.

## 7- Healthcare Team Alerts

The Well Beyond Care system allows a caregiver to alert your client's home health team & your patient's health care providers via email in the event of a significant change in condition, preventing avoidable emergent events or needless emergency room visits.

## 8- Payroll & Billing Hands Free

Families have enough to worry about and keeping track of time cards, clocking in and paying caregivers should not be one of those worries. We take care of all the back office items needed for payroll including LTCI reimbursement.
